## POLICE FORCES TRAINING PROGRAMME

EDUCATING PROFESSIONALS FOR A SAFER REGION

November 2014

In response to the ever-growing and more and more specialized training needs within the Caribbean private and public security sector, Amalgamated Security Services Limited (ASSL) in 2013 has incorporated a special purpose company, the Caribbean Institute for Security & Public Safety (CISPS), to support members of the industry in filling this void. CISPS' courses deliver both, hands-on and academic training in a way that is focused and relevant with the aim of assisting security and law enforcement professionals of all backgrounds, ranks and levels in their efforts to improve the service that they deliver even further.

ASSL in partnership with ACCP are pleased to now launch their Police Forces Training Programme (PFTP). In close cooperation with ACCP's secretariat, CISPS will contact you in the coming weeks to inquire what your specific training weeks would be. ACCP and CISPS will then evaluate the sum of all responses and requests, to determine a list of courses that are specific to the needs of Police Forces within the Caribbean region. We are working towards presenting this list of courses at the ACCP AGM in St. Kitts in 2015 and subsequently to offer ACCP Member Forces the opportunity to apply for free training.

For the success and smooth flow of this initiative it is therefore critical that you identify within your respective organization a dedicated liaison partner for the CISPS who will be in charge of any training activities and can provide the necessary details to allow CISPS the formulation of its programme. Kindly complete the attached form and submit it in soft copy to [info@caribbeansecurityinstitute.com](mailto:info@caribbeansecurityinstitute.com) or in hard copy to 1-868-223-6999. Should you require any further information, please contact either the email address above or call 1-868-223-6999 / 1-868-223-6968. Your liaison partner would be the CISPS' Principal, Mr. Ian Ramdhanie.

A short profile of CISPS is also attached for your attention.
